Room rental fees 2027

**Room
rental**

The following services are included in the rental fee:

Basic seating / furnishings

Small and medium-sized meeting rooms include standard furniture, which is included in the fee and can be removed for an additional charge.

Standard furniture (chairs and tables) is provided in the rooms and halls, regardless of whether theatre-style, boardroom, U-shape or classroom seating is required.

Changes to the seating arrangement on the same day or on any subsequent event day, as well as furniture not included in the standard set-up, will be charged separately.

Presentation equipment that is included (projector and screen)

From the "Small Conference Room" category onwards, a projection screen (white wall) is included in the usage fee.

From the "Large Conference Room" category onwards, a projection screen (white wall) and a projector (3,500 ANSI lumens, positioned at the front of the room) are included in the usage fee.

A technician fee for one hour will be charged for the event-related set-up of the existing presentation equipment (projector).

Basic furniture and equipment

The basic room set-up includes chairs/tables and the use of a projection screen (white wall) from the "Small Conference Room" category onwards.

Operating costs

Technical services (general electricity, water, air conditioning/ventilation), cleaning, toilet facilities and hall management are included. All additional costs for set-up, technical equipment, media technology and staffing services will be calculated separately in accordance with an individual quotation and are not included in the usage fee.

The basis for calculating these services is the current Messe Frankfurt Venue Price and Services Directory.

Electrical connections

Any electrical connections and high-voltage connections will be charged separately. (Implementation is not possible in all rooms.)

Set-up and dismantling days

A full usage fee will be charged for each set-up or dismantling day. An exception applies to the halls, for which 50% of the respective usage fee will be charged per set-up and dismantling day.

Unless otherwise stated, all prices quoted are net prices.

Net prices are subject to the applicable statutory VAT.
