

Frankfurt exhibitions ground: a city within a city

Frankfurt am Main, 02 07 2025

Located at the heart of financial and business centre Frankfurt, the exhibition grounds are among the largest and most modern worldwide with around 392,000 m² of hall area and more than 64,000 m² of free space at their disposal. Thanks to their excellent infrastructure, Frankfurt and the Rhine-Main region have very good international connections and can be reached easily from anywhere in the world.

Guests can travel to the exhibition venue quickly and comfortably by air, rail or road using public transport. The S-Bahn suburban train station "Messe" stops in the centre of the exhibition grounds, the U-Bahn underground train station and the Strassenbahn tram station are located directly at the City Entrance/Festhalle. The Rhine-Main region offers an excellent hotel infrastructure with an estimated 110,000 beds. Visitors and exhibiting companies can choose from a wide range of hotels within walking distance of the exhibition grounds. Mobility-impaired visitors can move about easily: the Via Mobile covered moving walkway is a barrier-free access and connection network that joins together all halls on the exhibition grounds.

With their unique designs, renowned architects such as Helmut Jahn, Oswald M. Ungers and Nicolas Grimshaw gave Messe Frankfurt's exhibition grounds an unmistakeable look that dovetails perfectly with Frankfurt's modern cityscape. Messe Frankfurt's guests set great store by the highly functional nature of its halls and conference facilities, which are ideal for hosting a broad cross-section of events. With the Congress Center and Kap Europa, the company operates two congress centres as well.

The Operation & Security Center is the central control room for all security-related matters. First aid station, police, security and all other security partners and service providers are found here under one roof.

Events can be held safely on the Frankfurt exhibition grounds thanks to a professional protection and hygiene concept, including state-of-the-art air conditioning and careful monitoring. Information about holding events safely on the Frankfurt exhibition grounds can be found at the following link:
