# StreamingSTUDIO

Our studio enables you to produce digital content quickly and easily and to integrate it on different platforms.

For you we produce live content and content for pre-production.

We increase your reach.

Individual access for your customers worldwide with little effort.

You can record live streams and use them as on-demand versions.

You can create secure access so that only selected participants have access to your content or sensitive data.

# StreamingSTUDIO

## What does our studio offer?

- Bookable with relatively short lead time
- Advice in advance, support during use
- Contact person on site during use
- Simple individualization (branding) adapted to your needs
